MEMORANDUM

July 8, 2019

TO: Brooks Davis

RE: 2019 BUILD Grant Data

Brooks,

This memo is in reference to the information provided by the Fort Hall Police Department for the 2019 BUILD Grant. The data was captured by Spillman Software which is a Motorola Solutions Company offering Public Safety Agencies integrated real time data for all law enforcement calls for service.

We utilized our Spillman Computer Aided Dispatch System data for the Fort Hall District. Due to the fact that the Fort Hall District is comprised of roads outside of the targeted area, we had to manually summarize the data collected to include only the specific target area for the 2019 BUILD Grant.

If you have any further questions please feel free to contact me at your convenience.

A handwritten signature in blue ink, appearing to read "Mark Massey", is written over a faint, light blue circular stamp.

Mark Massey
Captain of Police
